

Module-wise field creation Doc (WIP)

Lead Management Functional Requirements

1. Lead Capture Integration

Integrate multiple lead generation channels to ensure all inquiries are automatically captured in the CRM:

- **Web Forms & Landing Pages:** Capture inquiries from institutional websites and campaign pages.
- **Social Media:** Collect leads from platforms like Facebook, Instagram, LinkedIn, etc.
- **Education Portals:** Integrate with aggregators (e.g., Shiksha, College Dunia, Study Abroad portals).
- **Events:** Import attendee data from education fairs, webinars, or campus events.
- **Chatbots:** Capture chat interactions and convert qualified conversations into leads.

2. Lead Source Tracking

- Automatically tag each lead with its **originating source/channel**.
- Support **UTM tracking** for digital campaigns (e.g., Google Ads, Meta Ads).
- Enable reporting on **channel performance and ROI**.

3. Lead Scoring

- Apply **automated scoring logic** to prioritize leads based on:
 - Academic profile (e.g., GMAT/GRE scores, GPA).
 - Work experience or background relevance.
 - Engagement level (e.g., email opens, event attendance).
 - Fit with program requirements.
- Configure thresholds for **"hot," "warm," and "cold"** leads.

4. Lead Assignment & Routing

- **Auto-assign leads** to admission counselors based on:
 - **Geographic location** (country, region, or state).
 - **Program or course interest**.
 - **Lead score or priority**.
- Support **round-robin or load-based assignment** rules.

- Allow manual reassignment when necessary.

5. Duplicate Check & Merge

- Detect duplicate leads based on:
 - Name, email, phone, or unique student ID.
- Provide options to **merge duplicates** while preserving history.
- Automatically prevent **re-entry** of the same lead through multiple channels.

1. Lead Capture Integration

Objective:

Capture leads seamlessly from all inbound channels and push them into the CRM with standardized data fields.

Channel	Integration Type	Description
Web Forms	API / Embedded	Capture details from website inquiry or apply forms
Landing Pages	API / Webhook	Capture campaign-specific data (UTM tags, ad source)
Social Media	API (Facebook/LinkedIn Lead Ads)	Auto-sync form submissions
Education Portals	Partner API / CSV Upload	Import leads from aggregator portals
Events	Bulk Upload / QR Registration	Capture attendees from fairs, webinars, open houses
Chatbots	API / Webhook	Convert qualified chatbot conversations into leads

Fields to capture:

Field Name	Type	Description
Lead ID	Auto-generated	Unique system ID
First Name	Text	Lead's first name
Last Name	Text	Lead's last name
Email	Text	Primary email address
Phone	Text	Contact number
Country	Dropdown	Country of residence
State / City	Text	Geographic location
Channel Source	Dropdown	Web, Social, Portal, Event, Chatbot
UTM Source	Text	Digital campaign source
UTM Medium	Text	Campaign medium
UTM Campaign	Text	Campaign name or ID
Form Name	Text	Source form identifier
Program / Course Interest	Dropdown	Interested program(s)
Intake / Session	Dropdown	Intake (e.g., Fall 2025)
Lead Created Date	DateTime	Timestamp of capture

2. Lead Source Tracking

Objective:

Identify and record which channel each lead originated from to measure campaign and channel effectiveness.

Key Features:

- Auto-capture **source data** from UTM parameters and submission URLs.
- Enable **multi-touch attribution** if available (first touch vs. last touch).
- Map leads to **campaigns** for ROI reporting.

Fields to capture

Field	Type	Description
Source Type	Dropdown	Paid Ads, Organic, Referral, Event, Portal
Campaign Name	Text	Name of campaign or ad group
Sub-source	Text	Specific platform (e.g., Google, Facebook)
Lead Owner	User	Assigned counselor or rep
Created From	Text	Web, API, Import, Chatbot, etc.

3. Lead Scoring

Objective:

Automatically assign a numeric score to each lead based on profile quality and engagement.

Scoring Criteria Examples:

Category	Attribute	Points
Academic	GMAT/GRE Score $\geq$ 650	+10
Work Experience	3+ years experience	+10
Program Fit	Interested in flagship program	+5
Engagement	Attended webinar or replied to email	+5
Geography	Target region	+5
Email Bounce / Invalid	-10	

Fields:

Field	Type	Description
Lead Score	Number	Total score
Academic Score	Number	Points from academic data
Engagement Score	Number	Points from activity

Field	Type	Description
Last Scored Date	Date/Time	Timestamp of last scoring
Lead Status	Dropdown	Hot / Warm / Cold

4. Assignment & Routing

Objective:

Automatically route leads to admission counselors or advisors based on geography, program, or load.

Assignment Rules:

Rule Type	Criteria	Action
Geography	Country = "India"	Assign to Counselor A
Program Interest	MBA	Assign to Program Specialist
Load Balancing	Round Robin	Distribute evenly among team
Lead Score	≥ 50	Route to Senior Counselor

Fields:

Field	Type	Description
Assigned Counselor	User	Owner of the lead
Assignment Date	Date/Time	Date/time lead was assigned
Assignment Rule	Text	Rule logic applied
Follow-up Status	Dropdown	Pending / Contacted / Scheduled

5. Duplicate Check & Merge

Objective:

Prevent duplicate records and ensure a single, unified view of each lead.

Duplicate Detection Rules:

- Match on **Email**, **Phone**, or **Full Name + DOB**.
- Fuzzy match on **Name + City** for imported lists.
- Show merge preview to admin before confirmation.

Fields

Field	Type	Description
Duplicate Flag	Boolean	True if potential duplicate detected
Master Lead ID	Reference	Lead ID retained after merge
Merge Date	DateTime	Date of merge
Duplicate Confidence %	Number	Confidence level (0–100%)

Data Flow Overview

1. Lead captured via any source →
2. Enters CRM via API/webhook/import →
3. Source tracking data appended →
4. Lead scored automatically →
5. Routed to appropriate counselor →
6. Duplicates checked & merged →
7. Counselor follows up and updates status.

Communication Management - Centralized platform to communicate with prospects via multiple channels.

1. Email campaigns - Detailed Field Requirements

Objective

To design, create, schedule, and send targeted email campaigns to prospects and applicants in order to **nurture leads, improve application completion rates, communicate admission decisions, and increase enrollment conversion** through personalized and automated emails.

1. Campaign Information

- Campaign ID (Primary Key)
- Campaign Name
- Campaign Type (Manual / Automated / Drip / Trigger-based)
- Campaign Objective (Lead Nurture / Application Reminder / Interview / Offer / Fee Reminder)
- Target Program / Course
- Academic Year / Intake Term
- Target Audience (Prospects, Applicants, Admitted, Waitlisted)
- Segment Criteria (Incomplete Application, Paid Fees, Attended Interview)
- Created By (User ID)
- Created Date
- Modified Date
- Status (Active / Paused / Completed)

2. Email Content

- Subject Line
- Pre-header Text
- Body Content (HTML)

- Text Version (Plain Text)
- Attachment(s) (Prospectus, Offer Letter, Brochure)
- Personalization Variables ({{First_Name}}, {{Program}}, {{Application_No}})
- Language
- Email Footer (Institution address + Unsubscribe)

3. Automation & Scheduling

- Trigger Event (Signup, Form Submission, Deadline Missed)
- Scheduled Send Date & Time
- Frequency (One-time / Daily / Weekly / Event-based)
- Max Send Limit per Applicant
- Time Zone
- Stop Condition (If form submitted / fee paid)

4. Tracking & Performance

- Total Emails Sent
- Delivered Count
- Open Rate
- Click Rate
- Bounce Rate
- Unsubscribe Count

2. SMS and WhatsApp Integration

Objective

To provide **instant, time-critical and personalized communication** to applicants regarding deadlines, OTPs, interview schedules and admission updates through SMS and WhatsApp messaging.

Detailed Field Requirements

1. Message Details

- Message ID (Primary Key)
- Channel (SMS / WhatsApp)
- Message Type (Reminder / OTP / Status / Alert / Marketing)
- Template ID (if used)
- Message Body
- Character Count
- Media Attachment (WhatsApp only – PDF, Image)
- CTA Link (Application / Payment / Interview Link)

2. Recipient Details

- Applicant ID (Foreign Key)
- Full Name
- Mobile Number
- Country Code
- Preferred Language
- Consent / Opt-in Status

3. Scheduling & Trigger

- Trigger Event (Deadline, Missing Documents, Offer Release)
- Scheduled Date & Time
- Priority Level (High / Normal / Low)
- Time Zone

4. Delivery & Tracking

- Sent Status (Sent / Failed / Delivered)
- Read Status (For WhatsApp)
- Delivery Timestamp
- Failure Reason
- Provider ID (Twilio, Gupshup, etc.)

3. Call Management (Telephony Integration)

Objective

To enable the Admissions Team to **make, receive, record and monitor calls with prospects and applicants**, track interaction history, ensure better follow-ups and improve conversion.

Detailed Field Requirements

1. Call Information

- Call ID (Primary Key)
- Applicant ID (Foreign Key)
- Applicant Name
- Contact Number
- Program Interested
- Call Type (Inbound / Outbound / Missed)
- Call Start Time
- Call End Time
- Call Duration
- Call Status (Answered / Not Answered / Busy / Dropped)

2. Agent Details

- Agent/User ID
- Agent Name
- Department
- Extension/Device ID

3. Recording & Notes

- Call Recording File URL
- Transcription (if available)
- Agent Notes
- Call Outcome (Interested / Not Interested / Follow-up Required)
- Follow-up Date

4. Automation Actions

- Auto-SMS after missed call (Yes/No)
- Auto-create follow-up task
- Auto-tag applicant based on conversation

4. Templates & Personalization

Objective

To provide standardized, reusable and approved communication templates for email, SMS, WhatsApp and call scripts while allowing **dynamic personalization** using merge fields.

Detailed Field Requirements

1. Template Information

- Template ID (Primary Key)
- Template Name
- Template Type (Email / SMS / WhatsApp / Call Script)
- Category (Reminder / Offer / Rejection / Interview / Fee)
- Status (Draft / Approved / Archived)
- Version Number
- Language

2. Content Area

- Subject Line (For Email)
- Body Content
- Header / Footer
- Signature
- Merge Fields ({{Name}}, {{Program}}, {{Date}}, {{Link}}, {{Application_ID}})

3. Management & Control

- Created By
 - Approved By
 - Approval Date
 - Last Modified Date
 - Role-based Editing Rights
-

5. Communication History (Timeline of Interactions)

Objective

To maintain a **complete, centralized and chronological record of all communications** (Email, SMS, WhatsApp, Calls) between the institution and each applicant for transparency, tracking, and audit purposes.

Detailed Field Requirements

1. Interaction Details

- Interaction ID (Primary Key)
- Applicant ID (Foreign Key)
- Channel (Email / SMS / WhatsApp / Call / System)
- Related Record ID (Email ID / Call ID / Message ID)
- Date & Time
- Direction (Inbound / Outbound / System Generated)

- Handled By (User / System)

2. Content Summary

- Subject / Title
- Message Summary / Call Summary
- Full Content / Conversation Transcript
- Attachment Links

3. Status & Follow-up

- Delivery Status (Sent / Read / Failed)
- Action Taken
- Next Follow-up Date
- Assigned Staff
- Remarks

Application Management - Handles the candidate's journey from application initiation to submission.

1. Application Fee Payment Integration

(Multiple Payment Gateways & Reconciliation)

Purpose

Enable applicants to pay application fees seamlessly using different payment options while allowing the institution to accurately track and reconcile payments.

Key Features

- Integration with **multiple payment gateways** (e.g., Razorpay, PayU, Stripe, Paytm).
- Support for **UPI, cards, net banking, wallets**, and international payments.
- Automatic **payment status updates** (success / failure / pending).
- **Refund handling** (full/partial).
- **Reconciliation dashboard** for finance/admin teams.

Benefits

- Reduces payment drop-offs.
- Improves financial accuracy.
- Eliminates manual payment matching errors.

Technical Notes

- Webhooks for real-time payment confirmation.
- Transaction ID mapping with application ID.
- Daily/weekly reconciliation reports (CSV/Excel).

Application Master (Core Application Fields)

Field Name	Field Type	Description
Application_ID	Auto Number / UUID	Unique application identifier
Applicant_ID	Reference	Links to applicant profile
Program_Applied	Dropdown	Course / Program selected
Academic_Year	Dropdown	Admission year
Application_Status	Dropdown	Started / Submitted / Under Review / Approved / Rejected
Application_Start_Date	DateTime	When application was initiated
Application_Submission_Date	DateTime	When application was completed
Assigned_Counsellor	User Lookup	CRM counsellor assigned
Last_Updated	DateTime	Last status update
Application_Source	Dropdown	Website / Agent / Campaign

Application Fee Payment Integration Fields

Field Name	Field Type	Description
Payment_ID	Auto Number	Unique payment reference
Application_ID	Reference	Linked application
Payment_Status	Dropdown	Pending / Success / Failed / Refunded
Payment_Amount	Currency	Application fee amount
Currency	Dropdown	INR / USD / Other
Payment_Gateway	Dropdown	Razorpay / PayU / Stripe / Paytm
Transaction_ID	Text	Gateway transaction reference
Payment_Method	Dropdown	UPI / Card / Net Banking / Wallet
Payment_Date	DateTime	Successful payment timestamp
Reconciliation_Status	Dropdown	Matched / Unmatched
Refund_Status	Dropdown	Not Initiated / In Progress / Completed
Refund_Amount	Currency	Amount refunded
Finance_Remarks	Long Text	Notes from finance team

2. Document Upload & Verification

(Applicant Upload + Admin-side Verification Tools)

Purpose

Allow applicants to upload required documents and enable internal teams to verify, approve, or reject them efficiently.

Key Features

- Secure document upload (PDF, JPG, PNG).
- Document categorization (Mark Sheets, ID Proof, Certificates).
- Version control (re-upload on rejection).
- Admin-side verification actions:
 - Approve
 - Reject (with reason)
 - Request re-upload
- Status indicators per document.

Benefits

- Faster document screening.
- Reduced manual paperwork.
- Clear audit trail of document actions.

Technical Notes

- File size/type validation.
- Role-based access control.
- Encrypted storage (cloud-based).
- Timestamped verification logs.

Document Upload & Verification Fields

Field Name	Field Type	Description
Document_ID	Auto Number	Unique document identifier
Application_ID	Reference	Linked application
Document_Type	Dropdown	ID Proof / Marksheets / Certificates
Document_Name	Text	Uploaded file name
Document_URL	File / Link	Secure storage link
Upload_Date	DateTime	Document upload time
Uploaded_By	User / Applicant	Who uploaded
Verification_Status	Dropdown	Pending / Approved / Rejected
Verified_By	User Lookup	Admin/verifier
Verification_Date	DateTime	Verification timestamp
Rejection_Reason	Long Text	Reason for rejection
Reupload_Required	Checkbox	Indicates re-upload needed
Document_Version	Number	Version control

3. Application Status Tracker

(For Candidates & Internal Teams)

Purpose

Provide real-time visibility into the application's progress for both applicants and staff.

Key Status Stages

- Application Started
- Fee Paid
- Documents Uploaded
- Under Review
- Verified / Shortlisted
- Approved / Rejected / Waitlisted

Benefits

- Reduces applicant queries.
- Improves transparency.
- Helps admissions teams prioritize applications.

Views

- **Applicant View:** Progress bar or step-wise tracker.
- **Admin View:** Status dashboard with filters and bulk actions.

Technical Notes

- Status rules engine.
- Role-based status visibility.
- Timeline-based audit logs.

Application Status Tracker Fields

Field Name	Field Type	Description
Status_Log_ID	Auto Number	Status log identifier
Application_ID	Reference	Linked application
Previous_Status	Dropdown	Previous stage
Current_Status	Dropdown	Updated stage
Status_Changed_By	User	Admin / System
Status_Change_Date	DateTime	Change timestamp
Internal_Remarks	Long Text	Internal notes
Applicant_Visible	Checkbox	Show status to applicant
SLA_Days	Number	Expected turnaround time
SLA_Breached	Checkbox	SLA compliance indicator

4. Reminders & Nudges

(Automated Alerts & Notifications)

Purpose

Increase application completion rates by reminding applicants about pending steps.

Trigger Scenarios

- Application started but fee not paid.
- Fee paid but documents missing.
- Documents rejected and re-upload required.
- Deadline approaching.

Channels

- Email
- SMS
- WhatsApp
- In-app notifications

Benefits

- Higher conversion from started to submitted applications.
- Reduced manual follow-ups by staff.
- Improved applicant experience.

Technical Notes

- Rule-based automation engine.
- Configurable reminder frequency.
- Template management for messages.
- Opt-in/opt-out compliance.

Reminders & Nudges Fields

Field Name	Field Type	Description
Reminder_ID	Auto Number	Unique reminder record
Application_ID	Reference	Linked application
Reminder_Type	Dropdown	Fee Pending / Docs Missing / Deadline
Trigger_Event	Dropdown	Status change / Time-based
Reminder_Channel	Multi-select	Email / SMS / WhatsApp / In-app
Reminder_Template	Dropdown	Template reference
Reminder_Sent_Date	DateTime	When reminder was sent
Reminder_Status	Dropdown	Sent / Failed
Attempt_Count	Number	Number of reminder attempts
Next_Scheduled_Date	DateTime	Next reminder timing
Applicant_Response	Dropdown	Completed / No Action
Auto_Close	Checkbox	Close reminder after action

How the Module Works Together (Flow)

1. Applicant starts application
2. Pays application fee (gateway integration)
3. Uploads required documents
4. Admin verifies documents
5. Status updates automatically
6. System sends reminders if steps are incomplete
7. Final decision communicated via tracker + notification

Interview Scheduling & Evaluation

1. Shortlisting Criteria Engine

(Rule-based shortlisting before interview)

Module Name

Shortlisting Rules

API Name: Shortlisting_Rules

Purpose

Define eligibility and scoring rules to shortlist candidates for interviews.

Field Label	API Name	Field Type
Rule ID	Rule_ID	Auto Number
Program	Program	Pick List
Academic Year	Academic_Year	Pick List
Minimum GPA	Minimum_GPA	Decimal
Minimum Test Score	Minimum_Test_Score	Number
Work Experience (Years)	Work_Experience	Number
Weightage – Academics	Academic_Weightage	Number (%)
Weightage – Test Scores	Test_Weightage	Number (%)
Weightage – Experience	Experience_Weightage	Number (%)
Cutoff Score	Cutoff_Score	Number
Rule Status	Rule_Status	Pick List (Active / Inactive)
Created By	Created_By	Lookup (Users)

2.Interview Master

Module Name

Interviews

API Name: Interviews

Relationship

Lookup → Applications

Fields

Field Label	API Name	Field Type
Interview ID	Interview_ID	Auto Number
Application	Application	Lookup (Applications)
Interview Type	Interview_Type	Pick List
Interview Mode	Interview_Mode	Pick List
Interview Status	Interview_Status	Pick List
Interview Round	Interview_Round	Number
Interview Date	Interview_Date	Date
Interview Start Time	Start_Time	Date-Time
Interview End Time	End_Time	Date-Time
Interview Slot ID	Slot_ID	Single Line
Assigned Panel	Assigned_Panel	Lookup (Users / Teams)
Meeting Link	Meeting_Link	URL
Location	Location	Single Line
Interview Outcome	Interview_Outcome	Pick List

Interview Status Picklist

- Slot Available
- Scheduled
- Rescheduled
- Completed
- No Show
- Cancelled

3. Calendar Integration

(Google / Outlook sync)

Module Name

Interview Calendar Sync

API Name: Interview_Calendar_Sync

Purpose

Maintain calendar mapping for interviewers.

Fields

Field Label	API Name	Field Type
Calendar Sync ID	Calendar_Sync_ID	Auto Number
Interviewer	Interviewer	Lookup (Users)
Calendar Provider	Calendar_Provider	Pick List
Calendar Email	Calendar_Email	Email
Calendar Event ID	Calendar_Event_ID	Single Line
Sync Status	Sync_Status	Pick List
Last Sync Time	Last_Sync_Time	Date-Time
Availability Window	Availability_Window	Multi-line

Calendar Provider Picklist

- Google Calendar
- Outlook

4.Interview Slot Management

(Slot creation & booking)

Module Name

Interview Slots

API Name: Interview_Slots

Relationship

Lookup → Interviews

Fields

Field Label	API Name	Field Type
Slot ID	Slot_ID	Auto Number
Interview	Interview	Lookup (Interviews)
Interviewer	Interviewer	Lookup (Users)
Slot Date	Slot_Date	Date
Slot Start Time	Slot_Start_Time	Date-Time
Slot End Time	Slot_End_Time	Date-Time
Slot Status	Slot_Status	Pick List
Candidate Booked	Candidate_Booked	Checkbox
Booking Timestamp	Booking_Time	Date-Time
Time Zone	Time_Zone	Pick List

Slot Status Picklist

- Available
- Booked
- Blocked
- Cancelled

5.Evaluator Portal

(Panelist feedback entry)

Module Name

Interview Evaluations

API Name: Interview_Evaluations

Relationship

Lookup → Interviews

Fields

Field Label	API Name	Field Type
Evaluation ID	Evaluation_ID	Auto Number
Interview	Interview	Lookup (Interviews)
Evaluator	Evaluator	Lookup (Users)
Evaluation Status	Evaluation_Status	Pick List
Overall Recommendation	Recommendation	Pick List
Comments	Comments	Multi-line
Evaluation Date	Evaluation_Date	Date-Time
Submitted	Submitted	Checkbox

Recommendation Picklist

- Strongly Recommend
- Recommend
- Neutral
- Do Not Recommend

6. Rating & Feedback Capture

(Standardized rubrics)

Module Name

Evaluation Rubrics

API Name: Evaluation_Rubrics

Purpose

Standardize scoring across interviewers.

Fields

Field Label	API Name	Field Type
Rubric ID	Rubric_ID	Auto Number
Interview Type	Interview_Type	Pick List
Parameter Name	Parameter_Name	Single Line
Max Score	Max_Score	Number
Weightage	Weightage	Number (%)
Description	Description	Multi-line
Active	Active	Checkbox

7.Candidate Rating Scores

(Actual scores per rubric)

Module Name

Evaluation Scores

API Name: Evaluation_Scores

Relationship

Lookup → Interview Evaluations

Fields

Field Label	API Name	Field Type
Score ID	Score_ID	Auto Number
Evaluation	Evaluation	Lookup (Interview_Evaluations)
Rubric	Rubric	Lookup (Evaluation_Rubrics)
Score Given	Score_Given	Number
Evaluator Notes	Evaluator_Notes	Multi-line
Weighted Score	Weighted_Score	Formula

Admissions Decision & Offer Management - Supports decision-making and communication of offers.

1. Decision Workflow Engine

(Review, approval & final decision control)

Custom Module: Admission Decisions

API Name: Admission_Decisions

Relationship

Lookup → Applications

Field Name	Field Type
Decision ID	Auto Number
Application	Lookup (Applications)
Decision Stage	Pick List
Final Decision	Pick List
Decision Committee	Lookup (Users / Teams)
Decision Score	Number
Decision Date	Date-Time
Approved By	Lookup (Users)
Approval Status	Pick List
Internal Remarks	Multi-line
Applicant Visible	Checkbox
Decision Locked	Checkbox

Decision Stage Picklist

- Under Review
- Committee Review
- Final Approval

- Decision Released

Final Decision Picklist

- Offer Made
- Waitlisted
- Rejected

2.Offer Letter Generation

(Auto-generated letters from templates)

Custom Module: Offer Letters

API Name: Offer_Letters

Relationship

Lookup → Applications

Field Name	Field Type
Offer ID	Auto Number
Application	Lookup (Applications)
Offer Type	Pick List
Program Offered	Pick List
Offer Status	Pick List
Offer Letter Template	Lookup (Templates)
Offer Letter PDF	File Upload
Offer Generated On	Date-Time
Offer Valid Till	Date
Scholarship Amount	Currency
Conditions	Multi-line
Generated By	Lookup (Users)
Sent to Candidate	Checkbox

Offer Status Picklist

- Draft
- Generated
- Sent
- Expired
- Withdrawn

3.Acceptance Management

(Candidate confirmation, fee & onboarding)

◆ Custom Module: Offer Acceptances

API Name: Offer_Acceptances

◆ Relationship

Lookup → Offer Letters

Field Name	Field Type
Acceptance ID	Auto Number
Offer Letter	Lookup (Offer_Letters)
Acceptance Status	Pick List
Candidate Confirmation Date	Date-Time
Acceptance Deadline	Date
Seat Booking Fee	Currency
Fee Payment Link	URL
Fee Payment Status	Pick List
Payment Reference ID	Single Line
Onboarding Package Sent	Checkbox
Onboarding Info	Multi-line
Enrollment Status	Pick List

Acceptance Status Picklist

- Pending
- Accepted
- Declined
- Expired

4.Waitlist Management

(Alternate offers & movement tracking)

Custom Module: Waitlist Management

API Name: Waitlist_Management

Relationship

Lookup → Applications

Field Name	Field Type
Waitlist ID	Auto Number
Application	Lookup (Applications)
Waitlist Rank	Number
Waitlist Status	Pick List
Movement Trigger	Pick List
Alternate Program Offered	Pick List
Offer Released	Checkbox
Communication Sent	Checkbox
Last Review Date	Date
Remarks	Multi-line

Waitlist Status Picklist

- Active
- Offer Released
- Converted
- Closed

5.Rejection Handling

(Communication & future pathways)

Custom Module: Rejections

API Name: Rejections

Relationship

Lookup → Applications

Field Name	Zoho Field Type
Rejection ID	Auto Number
Application	Lookup (Applications)
Rejection Reason	Pick List
Detailed Reason	Multi-line
Rejection Date	Date-Time
Rejection Letter Template	Lookup (Templates)
Communication Sent	Checkbox
Alternate Options Suggested	Multi-line
Eligible for Reapply	Checkbox
Next Intake	Pick List

Reporting & Analytics - Provides actionable insights and dashboards for decision-making.

Funnel Analytics

(Lead → Application → Interview → Offer → Admission)

Source Modules

- Leads
- Contacts
- Applications
- Interviews
- Admission Decisions
- Offer Acceptances

Funnel Stages

Funnel Stage	Source Field
Lead Created	Leads.Created Time
Application Started	Applications.Status = Started
Application Submitted	Applications.Status = Submitted
Shortlisted	Applications.Status = Shortlisted
Interview Completed	Interviews.Status = Completed
Offer Issued	Admission Decisions.Final Decision = Offer
Offer Accepted	Offer Acceptances.Status = Accepted
Enrolled	Enrollment Status = Confirmed

Key Metrics

- Lead → Application Conversion %
- Application → Interview %
- Interview → Offer %
- Offer → Admission %
- Drop-off % per stage
- Average time per stage

2. Campaign Performance Reports

(Marketing ROI & effectiveness)

Source Modules

- Campaigns
- Leads
- Applications
- Offer Acceptances

Key Fields required

Field	Module
Campaign Cost	Campaigns
Leads Generated	Leads
Applications Created	Applications
Offers Accepted	Offer Acceptances
Revenue / Fees	Payments / Acceptances

Core Reports

Report Name	Metric
Cost per Lead	$\text{Campaign Cost} \div \text{Leads}$
Cost per Application	$\text{Campaign Cost} \div \text{Applications}$
Admission Conversion Rate	$\text{Accepted} \div \text{Leads}$
Revenue per Campaign	Total Fees Collected
ROI %	$(\text{Revenue} - \text{Cost}) \div \text{Cost}$

3.Geographic & Demographic Insights

(Region-wise / profile-wise trends)

Dimensions

Dimension	Source
Country / State / City	Leads / Contacts
Academic Background	Applications
Work Experience	Applications
Test Scores	Applications
Program Applied	Applications
Gender / Age Group	Contacts

Sample Reports

- Applications by City / State (Map View)
- Conversion Rate by Geography
- Offer Rate by Academic Background
- Admission Rate by Work Experience Band

4.Counselor Performance Analytics

(Productivity & conversions)

◆ Source Modules

- Users
- Leads
- Applications
- Interviews
- Offer Acceptances

◆ KPIs per Counselor

Metric

Leads Assigned

Applications Submitted

Interviews Scheduled

Offers Generated
